

Spring 2015 Seminar Schedule

January 23, 2015	No seminar
January 30, 2015	"Mass Spectrometric Analysis Using Ambient and Atmospheric Pressure Ionization Methods" Dr. Liguo Song, University of Tennessee - Knoxville
February 6, 2015	"TBA" Dr. Alexander Davis, National Institute of Standards and Technology
February 13, 2015	"Characterization of Edible Bean Flours: Properties and Functionality" Professor Courtney Simons, Food Science Program Director, WSU-Lake Campus
February 20, 2015	"Polymers in Special Uses" Renatta Mitton, WSU Master's Candidate "Oled Materials" Abraham Kemboi, WSU Master's Candidate
February 27, 2015	"FDA 101: Great careers for chemists, pharmacologists, toxicologists, pharmacists, and medical doctors" Dr. Ellis Unger, FDA
March 13, 2015	"Environmental Impact of Hydraulic Fracturing: An Overview" Saagar Patel, WSU Master's Candidate "Nanosilver Interactions with Minerals" Kevin O'Neil, WSU Master's Candidate
March 20, 2015	"Improving Introductory General Chemistry Students' Understanding of the Energy Concept" Dr. Basil Naah, Department of Chemistry, Wright State University
March 27, 2015	"Three Reasons to Run Away and Join the Circus" Karunakarreddy Madaram
April 3, 2015	"Clickable Chemistry Using Polymers" Kavitha Neithikunta, WSU Master's Candidate "Applications of Polyaryletherketones (PAEKs) in Biological Systems" Giovanni Covarrubias, WSU Master's Candidate
April 10, 2015	"Conductive Polymers" Anna Foote, WSU Master's Candidate "Carbon Nanotubes in Electronic Devices" Carly Jordan, WSU Master's Candidate
April 17, 2015	Posters-in-the-Hall
April 24, 2015	Department Picnic
