Fall 2018 Seminar Schedule

September 7, 2018  Nitrogen Cycling in Eutrophic Systems  
Associate Professor Silvia Newell  
Department of Earth & Environmental Sciences, Wright State University

September 14, 2018  Unraveling the Mechanism or Melatonin Signaling in the Immune System Using Fast-Scan Cyclic Voltammetry  
Assistant Professor Ashley Ross  
Department of Chemistry, University of Cincinnati

September 21, 2018  Illuminating Drug Discovery: Photochemical Control Over Inhibition of Therapeutic Targets  
Associate Professor Jeremy Kodanko  
Department of Chemistry, Wayne State University

September 28, 2018  The Hexagon Game, like $10,000 Pyramid, assisted by Dr. Clark

October 5, 2018  “Phantom of the Universe: The Hunt for Dark Matter” at Boonshoft Museum, be there by 3:45 PM

October 12, 2018  Finding Your Career Path in Chemistry, Career Workshop,  
American Chemical Society Career Services, 12:00-2:00 PM , 120 Med Sci

October 19, 2018  New Frontiers in Metal-Metal Bonding and Reactivity of Early/Late Heterobimetallic Complexes  
Professor Christine Thomas, Department of Chemistry, The Ohio State University

October 26, 2018  CoSM Retreat, please attend

November 2, 2018  CAS: We’re the Solutions Behind the Science (My career in serving chemistry and the chemical enterprise)  
Ms Gail Dean, MS Chemistry 2006  
Information Scientist, CAS

November 9, 2018  The Antimicrobial Effects of Functionalized Silver Nanoparticles  
Ashley Wilcox, WSU MS Candidate

November 16, 2018  Symposium on the Wright State Woods  
101 Fawcett Hall, 2:30-5:00 PM

November 30, 2013  Reductive Carboxylation of Unsaturated Hydrocarbons with CO₂  
Assistant Professor Brian V. Popp  
C. Eugene Bennett Department of Chemistry, West Virginia University

December 7, 2013  No seminar, last day of classes
