

Program of Study MS/MST

College of Science and Mathematics
Department of Earth & Environmental Sciences
Phone (937) 775-2201

Instructions: Complete the upper portion of this form after consulting with your thesis/project committee chair. List only the formal graduate courses that will make up the 30 credit hours required for your degree. Additional courses, if required, will be specified in a separate statement of deficiencies prepared by the *Graduate Studies Committee* when you enter the program. Ask all members of your thesis/project advisory committee to indicate their approval by signing. Submit the signed form to Chad Hammerschmidt in the department office (260 Brehm). Once it is approved by the *Chair of Graduate Studies*, the original will be kept on file, a copy will be forwarded to the *Graduate School*, and a copy will be sent to you by email. *Graduate School* policy states that the Program of Study should be completed by the end of the second semester.
